WARNING!
At places where multiple sheet metal profiles are connected it's prohibited to use DOUBLE FALZ SEAMER

IMPORTANT SAFETY INFORMATION FOR OPERATING THE DOUBLE FALZ SEAMER

- Before setting up the tool always make sure to remove the accumulator from the cordless drill!
- When performing operation that's not associated with the seaming task the accumulator must be removed from the cordless drill!
- Carefully read all safety information before operating the DOUBLE FALZ SEAMER and save it for future reference.
- As a matter of principle, any person who is put in charge with the start-up, operation, maintenance and repair of the machine must have read and understood the operating instructions, specifically the chapter on safety.
- When working with DOUBLE FALZ SEAMER on a roof, always use roof lifeline and follow all safety regulations, as the DOUBLE FALZ SEAMER with a cordless drill machine is a very fast tool.
- Before using DOUBLE FALZ SEAMER for the first time, carefully remove all packing materials.
- Always make sure that DOUBLE FALZ SEAMER is properly assembled before using.
- Always make sure the battery is disconnected from the DOUBLE FALZ SEAMER's cordless drill machine and only then clean the tool or replace the rolls.
- During the work hold hands, fingers, hair, clothes and other tools at a safe distance. Never place your hands, fingers or tools between the rolls.
- Do not overreach. Keep proper footing and balance at all times.
- Stay alert. Watch what you are doing. Use common sense. Do not operate tool when you are tired or under the influence of drugs, alcohol or medication. A moment of inattention while operating may result in serious personal injury.
- Do not wear loose clothing or jewellery. Keep your hair, clothing, and gloves away from moving parts. Loose clothes, jewellery or long hair can be caught in moving parts.
- After using DOUBLE FALZ SEAMER, make sure that the tool isn't wet and then put it in the box. If sand and dust accumulate around the rollers, clean them.
- Keep the tool clean. For more information on maintenance and cleaning, see on page 7.
- Do not expose the DOUBLE FALZ SEAMER extreme temperatures, it is not recommended to operate the device in cold weather (below zero degrees). Do not expose DOUBLE FALZ SEAMER to rain or use it under moist or wet condition.
- This tool is not intended for use by children. Ensure that children do not have access to the DOUBLE FALZ SEAMER.
- When Double Falz Seamer and accessories are not in use, keep them in a safe place.

I DO NOT let comfort or familiarity with product (gained from repeated use) replace strict adherence to safety rules for the subject product. MISUSE or failure to follow the safety rules stated in this instruction manual may cause serious personal injury.
1. If it's necessary only to do single step, you need to unscrew 4 and 5 roll off and you can start seaming!

When you unscrew the rollers you will see that fourth (4) roll is marked with gold and fifth (5) roll is marked with red engraving.

2. Position the DOUBLE FALZ SEAMER so that the 3rd roll is in line with the beginning of the metal profile (see picture).

Pull the handle upwards, so the rolls fix in their position and start seaming!
FOR ROOF / DOUBLE STEP

Using with twin square seam folder

1. Use twin square seam folder once.
2. Use twin square seam folder twice.
3. Use twin square seam folder for double seaming operation.

4. Make sure the 3rd roll is below the seam and 4th roll is above the seam.

5. Position the Double Falz Seamer on the seam with an open handle and then close the Double Falz Seamer and start seaming! Double Falz Seamer is attachable on any place in to the seam.
OPERATING INSTRUCTION OF DOUBLE FALZ SEAMER

- The DOUBLE FALZ SEAMER is to be operated exclusively by qualified and authorised persons who must know the national accident-prevention rules.
- Carefully remove packaging and all promotional labels before using DOUBLE FALZ SEAMER for the first time.
- Wear adequate working clothes. Long hair should be protected by a hairnet. Put on protective gloves.
- Obligated to check the DOUBLE FALZ SEAMER for externally visible damage and defects before starting work and to notify and eliminate any changes (including the operation behavior) that affect the safety.
- Sight-checking all screws—tighten screws if necessary.
- Operates with cordless drill starting from 80 Nm

POSSIBLE OPERATION FAILURE PREVENTION

- if DOUBLE FALZ SEAMER does not work - make sure the drill battery is charged ;)
- if rolls scratch color off the metal - make sure the work area is clean from sand, dust etc...
- if sound is not good while seaming - make sure the profile is correctly folded.
- if rotary rolls are starting to rust - after use the tool has not been carefully cleaned.
- if the tool stops - you can't use it on the specific place, if the cordless drill is powerful enough - it will withstand the force, but the tool will break, if the cordless drill is not powerful enough - it will break, but the tool will withstand.

CARE, MAINTENANCE AND STORAGE OF DOUBLE FALZ SEAMER

- Always make sure the battery is disconnected from the cordless drill and only then clean the tool!
- Clean the device every time after using it.
- Clean DOUBLE FALZ SEAMER from moisture, dust and sand.
- Always keep gears clean.
- Keep the rotary parts free from dust, sand and moisture.
- Check all screws periodically.
- It is strictly forbidden to put and keep a wet or damp Double Falz Seamer in a case.

We guarantee that all DOUBLE FALZ SEAMER is made of high quality materials and does not have any manufacturing defects. In case your device turns up the following defects, we will eliminate them in accordance with the law free of charge. Therefore, we give 1 (one) year limited warranty on our tools from the date of invoice. Limited warranty applies only to first sale. You must contact the company that has sold the product to file claims. Be sure that You have the purchase document! The device must be delivered for repair in a complete set.

If DOUBLE FALZ SEAMER is repaired by an unqualified person, we can no longer guarantee the quality of the device. Also, we can not guarantee the quality of the device if:
- the tool is mechanically damaged, dropped off or otherwise broken;
- have been used on incorrect working methods;
- have been used with unsuitable accessories;
- the tool is used for unforeseen purposes;
- the tool is used after detection of a defect;
- the tool used by a person without the necessary skills;
- the tool was uncared for;
- the construction and parameters of the tool have been changed.

The DOUBLE FALZ SEAMER is a complex combination of mechanical parts and has a lot of moving and wearing off parts. Wearing off parts is a normal phenomenon, not a production defect. In result of normal usage, worn parts will not be exchanged for free. Wearing parts are for example: Handle, Protectors, Chain, Wheels, Gear Drive Shaft, PVC Gears, PVC Case and all other moving parts.

THANK YOU FOR PURCHASING DOUBLE FALZ SEAMER, ENJOY!
The DOUBLE FALZ SEAMER is the perfect hand-held equipment for perfect and effortless seaming of single and double standing-seam in one operation.

The DOUBLE FALZ SEAMER is used for seaming of single and double standing seam on profile and is suitable for several materials – Stainless steel, steel, Aluminum, Copper and Zinc.

**TECHNICAL DATA**

- **WEIGHT:** 5.3 KG

**MAX THICKNESS**

- STAINLESS STEEL: 0.5 MM
- ALUMINUM, COPPER, ZINC: 0.8 MM
- STEEL: 0.7 MM

- You can use single and double standing-seam operations separately
- Double seaming process is easy to overview because of open type housing
- Starting from 25 mm any seaming height is usable without additional height adjustment
- Fastest seaming machine in the world - up to 30 m / min
- Seaming rolls are at the size of 60 mm for flatter seaming process to avoid metal stretching
- Can be attached and detached at any point on the seam
- Usable with cordless drill

**MAX SPEED**

- 30 M / MIN
- 100 M² / 7 MIN

**LIGHTWEIGHT**

The tools are placed inside the Military grade cases with safety

**LIGHTEST AND FASTEST TOOL IN THE WORLD FOR SEAMING SINGLE AND DOUBLE STANDING-SEAM IN ONE OPERATION**

When setting up the DOUBLE FALZ SEAMER we must remove and make sure that cordless drill accumulator is removed from the Accumulator drill machine.

Only when we are definitely sure that everything is connected properly only then we place the battery inside the cordless drill machine and start working!

1. Position the cordless drill machine on the 10mm rotating hex cap head axle and tighten it.

2. Tighten the cordless drill inside the Holder with the key that comes with the tool. The holder must be tightened until the inside edges of the holder stops against the cordless drill machine.

3/4. Adjust support bar which connects cordless drill mounting to Double Falz Seamer.

UNSCREW THE THIRD ROLL AND CHANGE THE SPACERS DEPENDING ON THE METAL PROFILE THICKNESS

- For metal profile thickness of 0.4 - 0.6 mm you must use a spacer of 4 mm.
- For metal profile thickness of 0.6 - 0.8 mm you must use a spacer of 5 mm.

FOR ROOF / DOUBLE
Using without twin square seam folder

The beginning of the metal profile is in line with the middle of third roll.

Position the DOUBLE FALZ SEAMER so that 3rd roll is in line with the beginning of the metal profile (see picture).

Pull the handle upwards, so rolls lock in their position and start seaming!
